Tale of Three Rallies

This film draws from the extensive archive of the Castrol Classics film collection to bring rally fans a rare treat.

The 1970s was a time of legendary drivers, iconic cars and titanic battles for victory. This DVD features action-packed highlights from three of the most memorable events from this period;

The 1978 Rally of the Danube in Romania, the 1979 San Remo Rally and the 1979 RAC Rally in Britain.

These fantastic visual records enable you to wind back the years and relive rarely-seen action from a great era in rallying, preserved thanks to the efforts of the Castrol collection.

An opportunity to see these films on the big screen.

All are welcome.!
