

DEAN & MARCHES

Around 40 people gathered at The Palace Cinema in Cinderford for our February meeting and annual motoring film night. This year we had a feature length film all about the Nurburgring racing circuit. The film covered everything from the initial building to the last F1 race to be run there. It was a very interesting and entertaining film.

Our next meeting will be on Monday 25th March. We will be making the delayed visit to Jacob Engineering at Huntley to take a look at the progress on their very interesting car projects. Meet at 7.30 pm at Jacob Engineering which is at 162/733198 or GL19 3EB
Everyone is welcome to come and view some wonderful engineering.
Stuart Harrold
